**RESPONSE TO NON-FINAL REJECTIONS**

Sir:

The following is intended to be fully responsive to the Final Office Action mailed June 20, 2006 ("the Office Action"). While the Office has indicated that this Action is final, the undersigned believes this Action is non-final. MPEP 706.07(a) states:

[A] second or any subsequent action on the merits in any application or patent undergoing reexamination proceedings **will not be made final if it includes a rejection, on newly cited art,** other than information submitted in an information disclosure statement filed under 37 CFR 1.97(c).

In this case, since the Office has cited new art, U.S. Patent No. 4,844,613 to Batchelder and U.S. Patent No. 6,493,090 to Lading et al., in rejecting the present claims, this Action should be considered a non-final action and the undersigned should have the ability to respond accordingly. In view of the arguments presented herein, the undersigned respectfully requests reconsideration of the rejections of the claims of the present application.

Amendments to the claims begin on page 2.

Remarks begin on page 8.

Conclusion begins on page 12.
